## taoo

15278

### Functionality meets relaxation.

Balanced shape and result is the topic. Due to well-being functions in combination with harmonious design **taoo** 15278 is both: beautiful and practicable.

### Flexible seat depth

The back of some elements can be moved slightly to increase the seat depth (except corner sofas, corner, one arm chaises).

### Cross-sleeper

The sofas can be extended towards the front to form a cross-sleeper. Art. no. = A05 (nettle cover), A06 (original cover).

### Flexible armparts

The armparts are foldable and fitted with a notch function for a surcharge. Item no. = SV1, SV2.

### Flexible headrest

The items can be equipped with a step-by-step headrest height adjustment function for surcharge. Item no. = KV1, KV2, KV3.

### Ottomans with function

The ottomans GRF and GLF are equipped with an armpart with notch function which can also be used as back support.

## ORDER INFORMATION

### Back sides of sofas:

All pieces are genuinely upholstered at the back.

### Cross sleeper:

surcharge cross sleeper in nettle cover = **A05**  
surcharge cross sleeper in original cover = **A06**  
A coil spring core is incorporated within the cross sleeper seats as well.

The cross sleeper is not useful for steady, daily usage.

**A bigger gap in the seat area arises construction-wise with the extended cross sleeper function with the corner element E in connection to the adjoining element.**

### Flexible armparts:

A max. load-bearing capacity up to 25 kg is guaranteed for functional armrests. They are not a seat.

### One arm chaises with double armpart:

The front armpart can be raised to a greater maximum angle than the rear one, as it serves as a backrest.

### Ottoman with folding armpart:

The right/left version of the ottoman with folding armpart must be specified so that the fabric run in the ottoman cover matches the fabric run when it is placed against the set. This prevents the fabric from changing colour.

### Ottomans with integrated storage space:

Some ottomans are equipped with a fold-out function with integrated storage space but no spring core. The GRF/GLF ottomans with folding armpart do not have a spring core.

### Base leg Z:

If elements and sofas without or with 1 armpart are to be placed directly against elements or

sofas without or with 1 armpart, a base leg Z is required and must be ordered.

### Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

### Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

### Contrasting thread:

This model is available in leather and some fabric colours with contrasting colour thread at no extra charge. You will find the specified colours in our fabric/leather trolley. Please state the no., otherwise tone-in-tone will be delivered.

**All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height and refer to the leg height ca. 10 cm. The depth measures include the overlapping of the headrest if the function is flapped backwards.**

Seat depth, back at the front: ca. **54 cm**

Seat depth, back at the back: ca. **70 cm**

Seat height: approx. **44/46 cm**

### Cross sleeper measures:

60-cm-grid width ca. **117 cm**

75-cm-grid width ca. **147 cm**

90-cm-grid ca. **177 cm**

depth ca. **70 cm** (additionally to the seat depth)

### Crease formation:

Fabric and leather stretch to a lesser or larger

extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

### Note on upholstery construction:

Ticking cushions have been used in the back. These may show under the cover. This is a typical feature of the product.

### Digital fabric/leather and colour samples:

The visual appearance of the covers and colour samples may vary, samples in accordance - colour and structure deviations possible.

### Two seat- /back heights:

The model is available in two different seat- and back heights. The second seat height is reached by a taller leg. Please specify the leg version.

### Chromatic aberrations:

The wooden structure is different from ordering to ordering. Deliveries after colour samples are basically excluded from complaints and exchange. We take care of the best

correspondence possible.

### Leg colours:

The legs including wood are available in a choice of different stain shades. We are happy to advise you.

### Metal colours:

The metal leg F C3/F C4 is available in different metal colours. Please indicate the colour when ordering.

### Castors for ottomans:

Every ottoman can be equipped with castors for surcharge. The item no. is indicated with an „R“ then (e.g. G..R). Two of the castors can be fixed. Please also note, that the castors are available in three different heights.

### Powder-coated:

The colours M21 silver, M56 bronze and M99 black are powder-coated.

### Legs and floor protection:

In case of very slender furniture legs with

deliberately filigree shapes and with small surfaces, it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and pressure points in connection with sensitive and/or soft floors. Even if you barely move the furniture, it can be helpful to have a carpeted floor.
