

FABRIC BELVEDERE

belvedere – elegant flat weave with a slight development of utility lustre.
With a velvety feel and a light, interesting changeant effect.

Product width: approx. 140 cm

Abrasion cycles: as per RAL 430/4 for working on upholstered furniture

Composition: NS: 30 % viscose, 20 % polyester, 19 % cotton, 17 % linen, 14 % poly-acrylic

GS: 30 % viscose, 20 % polyester, 19 % cotton, 17 % linen, 14 % poly-acrylic

Scrub resistance: very good

Rub fastness (colour wear): very good

Light fastness: very good

Pilling behaviour: very good

Right reserved to make structural and colour changes!

Care and cleaning: with commercially available products.

Please note:

- Every flat woven fabric will become roughened during use.
- Nap changes (seat shine/shiny areas) are unavoidable with all chenille fabric.
- Seat shine is unavoidable.
- The chenille effect will become somewhat flatter over time.
- When in use patina and shiny patches must be expected.
- Light patches occur on regularly used areas.
- Irregular article structure, e.g. concentration of threads, nodules etc.
- Loops caused by catching on sharp objects or Velcro strip are to be expected.
- Pilling is unavoidable and can be caused by the adherence of clothing and other textile fibres.
- **Caution:** If the material is of a light colour, soiling and jeans rubbing will show up faster and more clearly than on dark colours.

Caution: Discolouration caused by textiles are excluded from every manufacturer warranty.
