

ENGLISH:

Longlife^{Xtra} Z75 – a luxurious milled leather

Z75 is a luxurious heavy milled leather with a trendy "vintage" appearance. Its thickness of 1.5 – 1.7 mm in combination with the slightly satin finish and its dominant, transparent soft milled grains give this leather its elegant and noble look. It is resistant, has a very attractive softness and a very comfortable grip. This leather combines traditional tanning technique with innovative technology at highest level.

Natural features (scars, folds from fattening, as well as differences in structure and colour) are completely used and they can be found in all pieces of furniture. Healed brands are also used on the back covers. These features are not recognised as reasons for complaint.

The leather is a new generation of upholstery leather and a Longlife Xtra leather.

Thickness:	1.5 – 1.7 mm
Dyeing method:	slightly pigmented

About Longlife Xtra

Longlife Xtra leather is very supple, breathable and natural. Additionally it is durable and long-lasting. High light fastness and easy care of the leather, together with the five-year service warranty ensures an optimum of reliability and pleasure with your upholstered Longlife furniture.

Cleaning & Care

For cleaning and care of your upholstered furniture, please always use the high quality **Longlife Xtra Care Kits** only. They were especially developed for your Longlife leather. Upholstered furniture must not be treated with commercially available cleaners, since (almost) always silicones & waxes are contained. Clean only with a damp, lint-free cotton cloth – **never use a microfibre cloth!** After receiving your brand-new upholstered leather furniture, please treat the leather following the instructions of the **Longlife Xtra Care Kit** which you can buy at www.schillig-moebelpflege.de. Only by doing so you will receive an additional protection which reduces the soiling especially caused by jeans. Dirt has to be removed immediately.

5 year service warranty

By using the **Longlife Xtra products**, your leather furniture gets cleaned, cared and protected very well. At the same time, LCK offers the opportunity

to register for a **5 year service warranty**. This warranty comprises professional advice by phone, carriage-free delivery of special products for free (stain-remover) as well as a one time cleaning service free of charge for the dirty spot by an expert at your home. Please see www.longlifextra.de for further information.

Leather information

Intensive sunlight and localised radiation should be avoided (can lead to fading). Staining of the material caused by clothing (e. g. jeans, not colourfast textiles/materials) does not generally constitute reasons for complaint. Processing of intensive colours (red, blue, black, dark brown etc.) in combination with light colours can lead to colour migration (this is not accepted as reasons for complaint). Grains, pigment faults as well as structure and colour differences are natural features and are used to the full extent. They can be found in all parts of your sofa (seat, back, side part) and will not be recognised as a complaint (in the back part also brands are used). Please pass this information on to your customer.
